

August 24, 2018

Dear Families,

We unfortunately regret to inform you that due to low enrollment and financial constraints, the Board of Directors of Copper Point Schools will move at their board meeting on Tuesday, August 28th to cease operations. Rather than continue for a few months, we opted to inform you as soon as possible so that you can move your students to a new school quickly so they have the best opportunity to be successful for the coming year.

Our last day will be August 31, but we will begin to assist students in the transition starting Monday morning (8-27). We are preparing records for all students with the intent of having records and withdrawal forms ready so you can pick them up and enroll elsewhere as soon as possible. In addition, we can provide a list of other schools in the area and are happy to assist in the transition to another school. If you need records to enroll (some schools do not require records to enroll) they will be ready in the front office.

We are grateful that you entrusted your student's education with us and have enjoyed building relationships and being a part of the community. We wish our entire crew the best of luck for the future.

Copper Point Schools
Board of Directors
